Evan Boodoosingh

Haines City, FL 33844 | (863) 251-3329 | evan9496@gmail.com | [https://www.linkedin.com/in/evan-boodoosingh/]

Willing to relocate: Anywhere | Authorized to work in the US

Summary

A proactive and driven professional pivoting to a career in software engineering, with hands-on experience in full-stack development and web design. My background in managing multi-location retail and distribution operations has given me a unique perspective on process optimization, problem-solving, and team leadership. I am eager to combine my technical skills with my business acumen to contribute to a dynamic development team.

Technical Skills

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frameworks & Libraries:** React, Node.js, Mogodb
- **Tools & Concepts:** Git, GitHub, APIs, Figma, Responsive Web Design

Technical Projects

Spots | 2025 | https://github.com/Evan-Boodoosingh/se_project_spots

- Designed and developed a responsive photo-sharing web application using modular JavaScript, semantic HTML5, and CSS, ensuring accessibility and optimal user experience across devices.
- Implemented dynamic card interactions and real-time like button status, integrating RESTful API calls, custom form validation, and loading states for seamless and engaging user feedback.

WTWR | 2025 | https://github.com/Evan-Boodoosingh/se_project_react.git

- Designed and developed a modular React front-end application, implementing dynamic UI interactions and ensuring responsive design for an optimal user experience.
- Integrated RESTful API calls, custom form validation, and state management for seamless data handling and user feedback, leveraging modern React best practices.

Triple Peak Coffee Shop | 2025 | https://github.com/Evan-Boodoosingh/se_project_coffeeshop-ft.git

- Designed and implemented a responsive website for a fictional coffee shop using semantic HTML5 and CSS, following accessibility and SEO best practices.
- Developed custom interactive forms and engaging UI animations, utilizing Flexbox, BEM methodology, and advanced CSS positioning for maintainable and scalable front-end architecture.

Work Experience

Operations Manager | City Smoke Shop - Boston, MA | January 2018 - December 2024

- Managed three retail locations through virtual and in-person leadership, ensuring operational efficiency and compliance in daily store operations, including opening and closing procedures, cash handling, and customer service..
- Monitored profit and loss reports to identify opportunities for financial growth by 30 %.
- Built customer loyalty by ensuring products are aligned with customer needs and preferences.
- Contributed to the planning, development, and opening of 20 new stores across New England.

Distribution Center Coordinator | New England Smoke Distribution Center | January 2023 - December 2024

- Established a distribution center that supplies the majority of New England.

- Developed and implemented an inventory system to manage thousands of items, ensuring accurate and efficient tracking.
- Improved supply chain processes, reducing delays and enhancing order fulfillment.

Education

TripleTen | Software Engineering Bootcamp | June 2025 - October 2025

- Intensive curriculum covering 740+ hours of coding in JavaScript, React.js, Node.js, HTML5, CSS3, BEM, Data Structures and Responsive Web Design
- Developed 7 dynamic MERN stack web applications from scratch
